

# Acquired Brain Injury

## Non Traumatic Brain Injury

## Traumatic Brain Injury

Alcohol/Chemicals/Drugs/Medications  
(adverse drug reaction (ADR))  
Aneurysms  
Arteriovenous Malformations (AVM)  
CVA's/Stroke  
(ischemic blocked artery, bleeds in the brain)  
Diabetes Complication  
Hypoxias/Anoxias  
(lack of oxygen, heart attack, drowning, suffocation,  
asphyxiation, suicide, childbirth, medical,  
epilepticus)  
Infections  
Metabolic Disorders  
Tumors  
(growths - malignant & benign)

### Open Brain Injury

### Closed Brain Injury

Abuse  
Assault  
Bicycle  
Fall  
High-Risk Sport  
(football, hockey, soccer,  
rugby, boxing, or other  
contact sport)  
Motor Vehicle  
Pedestrian  
Penetrating  
Soldier Combat  
Surgery

Abuse  
Assault  
Concussion  
(bicycle, fall, motor vehicle,  
pedestrian, soldier combat,  
high-risk sport  
(football, hockey, soccer,  
rugby, boxing, or other  
contact sport)  
CTE  
(chronic traumatic  
encephalopathy)

### Non Degenerative Disease

### Degenerative Disease

Cold Sores/Herpes  
Dental Abscess  
Encephalitis  
Meningitis  
Metabolic Disorder

CTE  
(chronic traumatic  
encephalopathy)  
Dementia  
(Alzheimer's, Creutzfeldt-  
Jakob disease, down  
syndrome, frontotemporal,  
Lewy body)  
Huntington's  
Multiple Sclerosis  
Parkinson's
